Hardy Shrubs and Trees

offered for sale by

F. E. Palmer, Inc.

Florists and Landscape Gardeners

220 Washington St.
Brookline, . . Mass.

Telephone 2300 Established 1886

Fall Planting, 1923

Our bulbs are imported direct from Holland and France and are all of first quality. The following condensed list comprises the best varieties for pot culture and out-door bedding.

DIRECTIONS FOR POT CULTURE.

To successfully grow hyacinths, tulips, and narcissi in pots for the house, it is essential that they be given a long period of out-door treatment before being brought into the cellar.

Plant the bulbs in suitable-sized pots or pans, using any good garden soil. It is not essential to cover the tops of the bulbs, but it is important to put as much soil as possible beneath facilitate them to an abundant root growth. Water them thoroughly at this time. Infact from now on never allow the bulbs to become dry. Then bury the pots in the ground under six inches or so of soil and leave them out of doors until the middle of December or later, if there is no danger of the frost reaching the pots. At the end of this period bring all the bulbs into a cool cellar where they should remain until the middle of January, when they will be in proper condition to be transferred to the living room and allowed to flower.

F. E. PALMER, Inc., LANDSCAPE GARDENERS, BROOKLINE, MASS.

--	-----	------

PAPER WHITE NARCISSUS. Suitable for growing in water and pebbles.

Selected French-Grown Bulbs. Mammoth size \$.85 \$6.00

The cultivation of these beautiful flowers in the home is a fascinating experience, coming within the reach of everybody. The outlay is small, the process simple, and the result positively satisfying. A flat bowl that will hold, say, three to eight bulbs; some seashore pebbles, and a little water once in a while, is all that is needed. Place the dish on a window sill or table and leave it there. Start a few new bulbs every two or three weeks and you will have a continuous supply of their beautiful flowers all winter.

Prepared Potting Soil. Peck, 60c.; bushel, \$2.00.

Flower Pots. Bulb Pans.

Fibre and Earthenware Saucers.

Milady's House Plants, a helpful guide in the care of house plants, written by Mr. Palmer. It contains a chapter on bulb growing. Cloth bound, \$1.00—with paper cover, \$.75.
